180 YEARS OF MAKING OUR MARK

In 2026, Cross celebrates 180 years of shaping the art of writing. Since 1846, we have believed that putting pen to paper is more than an action, it’s a meaningful ritual deserving of instruments crafted with intention, skill, and permanence. Founded in Providence, Rhode Island, A.T. Cross became America’s first manufacturer of fine writing instruments, establishing a standard that continues to guide us today.

From the beginning, Cross has paired timeless design with technical innovation to create writing instruments engineered for flawless performance and everyday use. Built to endure beyond trends, Cross pens have earned a place not only in history, but on desks, in pockets, and as gifts for life’s most meaningful moments—symbols of trust, heritage, and lasting relevance.

Every Cross writing instrument is crafted for a lifetime of enjoyment and backed by our Lifetime Mechanical Warranty. A promise we have upheld for decades and one that remains a defining distinction in the fine writing category. As we mark 180 years, we invite you to **MAKE YOUR MARK.**

OUR HERITAGE

WE'VE BEEN WRITING OUR STORY SINCE 1846.

INVENTING. INNOVATING. ALWAYS EVOLVING.

Since our earliest days, Cross has rewritten the rules for putting pen to paper.

1846

A.T. Cross Company was founded in Providence, Rhode Island by English craftsman Richard Cross, specializing in crafting beautifully ornate pencil casing in fine gold and silver.

1879

Richard's son, Alonzo Cross, invents the first propel-repel stylographic pen, the technical forerunner to today's modern ballpoint pen.

1953

The iconic Century® ballpoint pen was introduced with Ellery Boss' groundbreaking internal design patent.

Introducing a slimmer, easily replaceable ink refill.

1993

Townsend® becomes known as The Pen of Presidents, used by leaders across the globe to this day. Century® II also makes history as the pen chosen by both parties for official White House signing ceremonies.

1889

The first Cross Fountain Pen debuts with the name Peerless™ to signify its unmatched technology and design.

2009

Cross becomes the first luxury maker to create multi-function pens with the launch of its Tech Series.

1946

The Century® Pencil debuts in gold and silver finishes to celebrate the Cross Company's Centennial.

2026

Cross celebrates its 180th Anniversary with a limited edition heritage pen.

We don't just make pens; we create timeless treasures that become **cherished heirlooms** passed down for generations.

THE GIFT OF CHOICE FOR GENERATIONS

Perfect for birthdays, graduations, promotions, anniversaries and more, a Cross writing instrument offers both practicality and sentimental value. Its enduring quality ensures the recipient will cherish it for years to come.

LIFETIME MECHANICAL WARRANTY

To uphold the trust our customers place in Cross, we offer an industry-leading Lifetime Mechanical Warranty that sets us apart from other brands. All Cross writing instruments are unquestionably guaranteed against mechanical failure, regardless of age.

All Cross writing instruments are designed to be easily refillable and reusable for lifetimes of enjoyment.

THE CROSS BENEFIT: SUSTAINABLE & DURABLE SOLUTION

Cross' commitment to quality and longevity is supported by our rigorous standard for sustainable manufacturing processes.

LOWER CARBON FOOTPRINT

50 billion disposable plastic pens end up in landfills and oceans every year. Cross pens are designed to last decades, not months, leading to a smaller carbon footprint.

DURABLE & RECYCLED MATERIALS

99% of Cross writing instruments are made with high quality metals and include recycled copper, offering a more eco-friendly and durable alternative.

COMBATING PLASTIC POLLUTION

Cross helps combat plastic pollution by eliminating single-use plastics in our production processes, reducing landfill waste and microplastic pollution.

SUSTAINABLE CERTIFIED PAPER

100% of Cross journal paper is FSC certified, ensuring that it comes from responsibly managed forests that provide environmental, social, and economic benefits.

TECHNOLOGIES AVAILABLE

ROLLERBALL PENS

ENGRAVING SERVICES

Most Cross writing instruments include an area on the cap for engraving. Standard caps accept one line of engraving. The barrel section of writing instruments cannot be engraved.

Engraving lead time and availability:
Contact your Sales Representative for more information.

Engraving methods for precious metal caps include deep-cut without colour, deep-cut enamel-filled, and laser.

- For deep-cut, enamel-filled engraving, font styles include Block, Script, Contempo and Times Regular. Colour-fill options vary by product. Metal pen fill available in black, gold, blue, red and green. Lacquer finishes with gold-plated appointments include a standard colour-fill of gold tone. Lacquer and satin finishes with rhodium- or chrome-plated appointments include colour fill of silver tone.

TIP TECHNOLOGIES

Cross luxury writing instruments are available in a wide variety of tips to suit many consumers’ needs.

Depending on the item, the tip technologies available are:

FOUNTAIN PEN

- One of the oldest styles of writing instruments, Fountain Pen nibs actually adapt to your own personal grip and writing style over time, creating lines on the page that — like your signature — are your own. Ink flows by capillary action from an ink reservoir to the Fountain Pen nib, which is the delicate split metal mechanism that contacts the paper. A favourite of the true connoisseur, Fountain Pen are each a work of art in their own right.
- Cross offers nibs in three widths, depending on the collection: Medium, Fine & Extra-fine
- Cross Fountain Pens support two different feed systems:
 - Cartridge, or a replaceable capsule full of ink, which is inserted into the neck of the nib.
 - Converter, which allows the writer to load liquid bottled ink and insert it into the writing instrument.

BALLPOINT PEN

- The Ballpoint is the most popular tip technology and in many ways the simplest. A Ballpoint Pen uses a small rotating ball made of carbide to disperse ink as you write. This ball acts as a buffer between the material you’re writing on and the ink inside the pen. The ball rotates freely and rolls out the ink as it is continuously fed from the ink reservoir.
- Ballpoint Pens are not capped, but instead retract and store via a rotating mechanism in the barrel.
- Low maintenance and easily refillable, the Ballpoint Pen is the option for the everyday pen user.

SELECTIP® ROLLERBALL

- Our most versatile tip technology is proprietary to Cross, and is known as Selectip® Rollerball. A Selectip® allows you to “select” the kind of refill you want to use in this writing instrument from the following options:
 - Gel Rollerball (a mix of Ballpoint ease of use and the elegance of Fountain Pen ink-flow)
 - Jumbo Ballpoint (Ballpoint technology with a bolder, fuller write-out)
 - Porous-Point (most commonly known as a Flair or Marker Point)
- The inks in a rollerball are generally aqueous based. This results in a smoother, fluid (or wet) lay-down of ink similar to a Fountain Pen. Aqueous based inks, due to their fine fluidity, also tend to dry out quicker, thus care must be taken to always cap, or retract, Selectip® pens between uses.
- Unlike Ballpoint Pens, most Selectip® pens have a separate cap which prevents the ink from drying during storage.

GEL INK PEN

- The tip technology of gel ink has been rapidly gaining popularity over the past few years, and Cross now has several retractable gel ink writing instruments.
- Gel inks are generally aqueous based. This results in a smoother, fluid (or wet) lay-down of ink similar to a Fountain Pen.
- Aqueous-based inks, due to their fine fluidity, also tend to dry out quicker, thus care must be taken to always retract the tip after use.

MECHANICAL PENCIL

- Offered in 0.5mm and 0.7mm widths, depending on the product, to suit different writing preferences.
- Engineered for smooth, consistent writing.
- Produces dark, crisp lines, ideal for technical drawings, note-taking, and everyday writing.
- Break-resistant lead minimizes interruptions.
- Refillable for superior quality and longevity.
